aspiring web developers

About Alpha Academy

Alpha Academy is a leading online learning platform that offers an exceptional e-learning experience. We can help you achieve your goals, whether it is to increase your present knowledge or to learn new skills.

The future of learning is a virtual community where the classrooms are global and not limited to any boundaries. So, we want to renovate learning and empower you with tomorrow's in-demand skills.

Our goal is to build a community of professionals and educators who teach practical web development skills to a fast-growing global audience. This is why we have created this Complete Web Development Bootcamp for you. Through this Bootcamp, we aim to provide technical knowledge with creativity that'll prepare you for the upcoming future. We will give you lifetime access to make learning web designing easy and for people from all walks of life.

Course Overview

This Web Development Bootcamp will teach you everything you need to know about web development, including HTML, CSS, Bootstrap, and JavaScript.

By the end of this course, you'll be able to:

- Describe the structure and functionality of the internet.
- Create dynamic web pages using a combination of HTML, CSS, and JavaScript.
- Apply fundamental programming language concepts when creating HTML forms.
- Choose an appropriate web hosting service.
- Publish your web pages for all to see.
- Finally, be able to create a functional model.

Week - 01:

HTML & CSS

Week - 02:
